Message from the President & CEO

March 1, 2013

I'm excited to share with you the San Diego Housing Commission's (SDHC) major organizing partners' annual Valentine's Day "Show Your Love" campaign, urging San Diegans to donate money at one of the "donation stations" for homeless programs.

In the spirit of Valentine's Day, SDHC joined the "Show Your Love" campaign, encouraging San Diegans to "show their love" to the homeless by donating money at one of 100 "donation stations." The stations included information about the services San Diegans received.

Restored Century-Old Hotel Provides Affordable Housing

The Mason, a 100-year-old downtown hotel, recently completed major renovation. The Mason is currently providing homes for very low-income adults who are at risk of becoming homeless. The Mason is located in the heart of downtown San Diego.

The renovation included the addition of family-oriented on-site care, making it accessible to tenants with special needs.
