SUBJECT: Multifamily Bond Program – Annual Status Report Calendar Year 2020

COUNCIL DISTRICT: Citywide

NO ACTION IS REQUIRED ON THE PART OF THE HOUSING COMMISSION

SUMMARY

This report summarizes activity under the San Diego Housing Commission's (Housing Commission) Multifamily Bond Program (Bond Program) for the calendar year ending on December 31, 2020. During calendar year 2020, the Bond Program issued \$267,066,264 in tax-exempt Multifamily Housing Revenue Bonds to provide financing for eight affordable rental housing developments. At the end of 2020, the Housing Commission's Bond Program administered 81 bond project issuances, including new issuances, with 11,163 units, of which 9,562 units are restricted at various levels of affordability (Attachment 1).

BACKGROUND

The interest income from tax-exempt bonds issued by the Housing Authority of the City of San Diego (Housing Authority) for eligible affordable rental housing developments is exempt from state and federal income taxes. The Bond Program uses this tax-exempt status to offer below-market financing to developers of affordable multifamily rental housing. The issuance of tax-exempt Multifamily Housing Revenue Bonds qualifies projects for non-competitive allocations of federal tax credits. Eligible projects for tax-exempt Multifamily Housing Revenue Bonds include new construction and acquisition/rehabilitation projects located in the City of San Diego.

The bonds do not constitute a financial liability of the City of San Diego, the Housing Authority, or the Housing Commission. The security for bond repayment is limited to specific private revenue sources, such as project revenues, guarantees by credit providers, or the value of the projects themselves. Neither the faith and credit nor the taxing power of the City or the Housing Authority is pledged to the payment of the bonds. The developer is responsible for the payment of all costs under the financing, including the Housing Commission issuance fee and annual administrative fee, as well as Housing Commission Bond Counsel and Financial Advisor fees.

DISCUSSION

The following is a description of the actions that must be taken by the Housing Commission, Housing Authority, and the City Council to initiate and complete financings.

1. Bond Inducement

The adoption of an Official Intent Resolution (bond inducement) is the initial step the Internal Revenue Service requires to initiate a possible new-money bond issuance. It does not represent

a commitment by the Housing Commission, Housing Authority, or the project sponsor to proceed with the financing. Rather, it establishes through public record, the date from which project costs incurred may be reimbursed from bond proceeds. Generally, the bond inducement amount is higher than the estimated bond amount to reflect a 5 to 10 percent contingency to provide for increases in development costs and fluctuations in interest rates. The adoption of a bond inducement resolution also authorizes staff to work with a selected financing team (Financial Advisor and Bond Counsel) to determine the feasibility of the financing, structure a proposal for the issuance of bonds, and submit an application to the California Debt Limit Allocation Committee (CDLAC) for an allocation of bond issuing authority.

2. TEFRA Hearing and Approval

For the interest on the bonds to be tax-exempt, and in compliance with the Tax Equity and Fiscal Responsibility Act (TEFRA) of 1982 and Section 147(f) of the Internal Revenue Code of 1986, the bond issuance must be approved by the governmental body with jurisdiction over the project's location. A public hearing, with reasonable public notice, is required prior to the approval. The elected legislative body for the City of San Diego, the City Council, must approve the issuance of bonds by the Housing Authority. A notice of the City Council meeting on the proposed issuance of bonds is published on the "Public Notices" section of the Housing Commission's website at least seven days prior to the scheduled meeting. The purpose of the TEFRA hearing is to provide the public with an opportunity to give their views on the proposed bond issuance and on the nature and location of the project.

3. Bond Allocation

The issuance of bonds for projects proposed by private developers (i.e., projects owned by private for-profit developers or by nonprofit sponsors with for-profit investor participation – "private activity bonds") requires an allocation of bond issuance authority from the State of California. To apply for a bond allocation, an application by the Housing Authority must be filed with CDLAC. The application must be supported by an adopted bond inducement resolution and proof of credit enhancement and/or a lender commitment to purchase the bonds. In addition, a TEFRA resolution must be approved no later than 30 days after application submittal.

4. Final Bond Approval

The Housing Authority retains absolute discretion over the issuance of bonds by the adoption of a final resolution authorizing the issuance. Initially, the information about the proposed tax-exempt financing of the project is preliminary. If the inducement and TEFRA resolutions are approved, staff and financing team members conduct a due diligence process that will generate additional information and analysis. Before the Housing Authority's final consideration of the proposed bond issuance, the project will need to comply with all of the program's financing and affordability requirements and undergo all required planning procedures/reviews by local planning groups.

PROGRAM ADMINISTRATION

The Housing Commission administers a portfolio of 81 bond issuances, totaling \$2,017,325,832 (Attachment 1). Primarily these functions involve monitoring the affordable income and rent restrictions, administering fee monitoring, and providing certain post-issuance compliance

monitoring and reporting as CDLAC requires. Other activities include: periodic selection of financial consultants; reviewing project transfers and credit facility transfers or extensions; coordinating bond requirements on bond expirations and bond re-fundings; reviewing/approving bond payoffs; overseeing bond requirements with ownership transfers; and providing technical assistance to affordable housing developers. The Housing Commission’s origination fee for each financing under the Multifamily Bond Program is 0.25 percent of the bond issuance amount, or as allowed by Internal Revenue Service regulations. The Housing Commission’s annual administrative fee is 0.125 percent of the outstanding bond balance amount, or as allowed by Internal Revenue Service regulations. These fees pay for ongoing compliance monitoring and bond program administration.

CALENDAR YEAR 2020 PROGRAM ACTIVITIES:

During calendar year 2020, the program provided \$267,066,264 in tax-exempt Multifamily Housing Revenue Bond financing for eight affordable rental housing developments, as compared to \$176,816,996 issued in 2019 for five affordable rental housing developments. A comparison of recent years’ bond issuances is as follows:

2020 Bond Issuances Comparison to Prior Years			
Years	Multifamily Tax-Exempt Bonds Issued	Number of Affordable Projects	Affordable Units Restricted
2020	\$267,066,264	Eight	738
2019	\$176,816,996	Five	737
2018	\$180,033,124	Seven	907
2017*	\$437,512,123	Nine	1,148
2016	\$204,324,556	Six	772
2015	\$98,196,315	Six	513
2014	\$66,850,791	Five	517
2013	\$81,170,000	Four	417
2012	\$40,925,000	Two	216

**The bond issuances in 2017 included \$216.5 million to facilitate the development of Park & Market, a 426-unit, mixed- use development in the East Village neighborhood of Downtown San Diego, which will include 85 units that will remain affordable for 55 years (Housing Authority Report No. HAR17-015; Resolution No. HA-1729).*

The Bond Program finances two major types of projects: 1) Bond Re-fundings/Restructurings, and 2) New-Money Issuances.

1. Bond Re-fundings and Restructurings

Bond documents governing individual project financings allow participating developers and credit providers to request reissuance or restructuring of the existing bonds to adjust original terms of the financing in response to the project’s new needs or circumstances. Approval to re-fund or restructure is at the discretion of the Housing Authority, as the original issuer. Federal rules for bond re-fundings can be more liberal than those for new-money issuances, depending on when a project was originally financed. Projects

financed before 1986 are subject to lesser rent and income restrictions than those that currently apply.

In 2020, no bonds were issued to projects engaged in re-fundings or restructurings.

2. New-Money Issuances

To be eligible for tax-exempt Multifamily Housing Revenue Bond financing, federal law requires that projects meet one of the following:

- a. A minimum of 20 percent of the units must be set aside for occupancy by households whose incomes do not exceed 50 percent of Area Median Income (\$57,750 per year for a family of four in San Diego during 2020), as adjusted for family size; or
- b. A minimum of 40 percent of the units must be set aside for occupancy by households whose incomes do not exceed 60 percent of Area Median Income (\$69,300 per year for a family of four in San Diego during 2020), as adjusted for family size.

However, California state law further requires that at least 10 percent of the units be restricted to 50 percent of Area Median Income (AMI). As a result, projects financed with tax-exempt bonds must set aside at least 20 percent of the units at 50 percent of AMI or 10 percent of units at 50 percent of AMI and 30 percent of the units at 60 percent of AMI.

Required Set Aside Criteria	Minimum Percent of Units	Percent of AMI	Max Income
Federal Requirement – Alternative #1	20	50 percent	\$57,750
Federal Requirement – Alternative #2	40	60 percent	\$69,300
Plus State Set-Aside Requirement	10	50 percent	\$57,750

The maximum rent for the set-aside units may not exceed 30 percent of monthly income at the targeted income level, as adjusted for household and unit size. The maximum rent amounts are further reduced by a utility allowance for tenant-paid utilities in the amounts determined periodically by the Housing Commission. The following are examples of how rents are determined, depending on the type of set-aside selected, for a family of four occupying a three-bedroom unit:

Targeted Income Level	Annual Income	÷ 12	Monthly Income	X 30%	Gross Monthly Rent	-	Estimated Utility Allowance	=	Net Monthly Rent
50% AMI	\$57,750		\$4,813		\$1,444		\$50.00		\$1,394
60% AMI	\$69,300		\$5,775		\$1,732		\$50.00		\$1,682

During 2020, all eight developments for which bonds were issued were new-money bond issuances. These developments consist of 999 rental units, 738 of which will be affordable to low- and very low-income households. Descriptions of the developments are provided below. The restricted units in these developments will remain affordable for a minimum of 55 years. The applicable rent restrictions for a given development often exceed those of the bond program rents due to the restrictions of other funding sources, such as the State of California’s Tax Credit program.
